

DIN Rail Module

These modules can be configured to suit Cat 5e, Cat 6, Cat 6a, LC Duplex, SC Simplex and ST networks, using an adapter. Each can be configured in a UTP or FTP option.

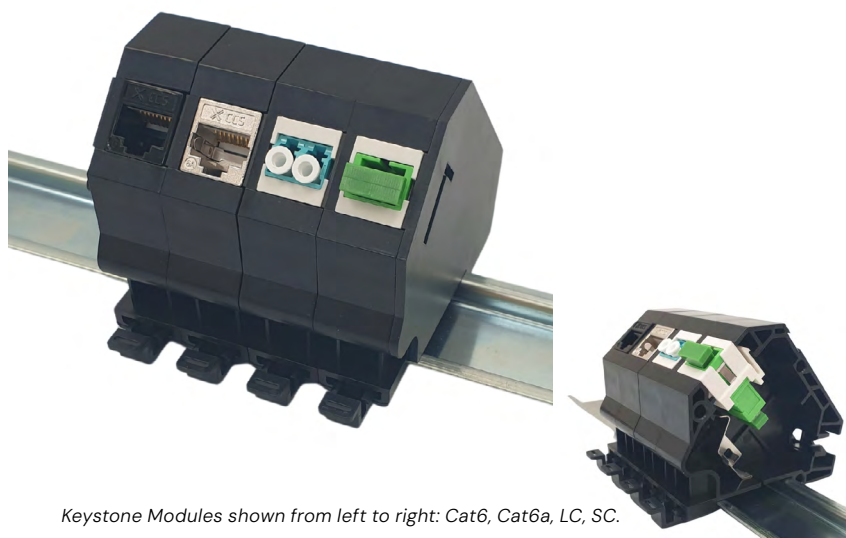

Each outlet module measures at 18 x 65 x 80mm (WxHxD). The modules are designed to be ganged together on a DIN Rail.

The DIN Rail Module is designed and interlocked with end cap on open end. Each module has a spring-back clip for ease of mount/demount to the DIN Rail.

DIN Rails, Keystones and Adapters can be bought separately.

Features & Benefits

- Compatible with top hat DIN rail (35mm)
- Cable entry of max 8mm
- Spring-back DIN rail clip
- Compatible with Cat 5e, Cat 6, Cat 6a, LC Duplex, SC Simplex & ST networks
- Label area

Keystone Modules shown from left to right: Cat6, Cat6a, LC, SC.
