KL1200

Robust Keyless Access

For more challenging locker environments, the KitLock by Codelocks KL1200 electronic locker lock includes all the benefits of standard KitLocks but is tougher and more robust.

The KL1200 locker lock includes additional programming features, stainless steel buttons, dual fixing points, and increased battery life. The KL1200 provides enhanced benefits to facilities managers looking to simplify access control without the need for keys. Quick, tough, and cost effective.

FEATURES

- 11 button keypad
- Ready to fit doors up to 25mm (1")
- 8 digit Master and Sub-Master Code
- 4 digit User Code / 6 digit Technician Code
- Right hand version available
- Up to 50,000 operations (2 x AAA batteries supplied)
- Battery override
- Red LED will flash on opening to indicate low battery
- Auto unlock feature
- Audible keypad
- Non-volatile memory will be retained
- Slam latch accessory available
- All parts / fixings / templates included
- IP54 rated when fitted with gasket (available separately)

FUNCTIONS

Private Function

This is the default function and is already pre-programmed in new locks. This function is used where the same code will be repeatedly used, e.g. an employee with the same locker/drawer in the workplace.

Public Function

In this function the KitLock operates with a single User Code. The user enters a personal four digit code, this locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short term, multiple occupancy applications, e.g. hot desking in an office or a locker in a sports club.

KL1200 HANDING

Vertical

The vertical models are non-handed and supplied to suit Right or Left Hand hung doors.

Horizontal

The horizontal model is handed and available in Right Hand version only.

KitLock by CodeLocks is a convenient and stylish alternative to traditional key-operated locker locks. Cabinets and lockers in any setting including gyms, leisure centres, schools, hospitals and offices can be opened using a keypad code, eliminating the inconvenience of coins and keys.

BENEFITS

Code Management

KL1200 has four code levels available:

- 8 digit Master Code
- 8 digit Sub-Master Code
- 4 digit User Code
- 6 digit Technician Code

The KitLock is supplied with two factory set codes:

- Master Code
- User Code

Before installing change the Master and User Code by following the Programming and Operating Instructions.

Easy to install
