

INSTALLATION & MAINTENANCE MANUAL

SFRLxx

GENERAL INSTRUCTIONS

These instructions should be read carefully and retained after installation by the end user for future reference and maintenance.

**These instructions should be used to aid installation of the following product:
SFRLxx**

SAFETY

- This product must be installed in accordance with the latest edition of the IEE Wiring Regulations (BS7671) and current Building Regulations. If in any doubt, consult a qualified electrician
- Please isolate mains prior to installation or maintenance
- Check the total load on the circuit (including when this product is fitted) does not exceed the rating of the circuit cable, fuse or circuit breaker
- Please note the IP (Ingress Protection) rating of this product when deciding the location for installation
- This product is for indoor use only
- This product is Class I and must be earthed
- This product is IP20 rated
- This product is for indoor use only

INSTALLATION

- This product may be fitted to a standard 1G back box, minimum mounting depth 25-35mm depending on wiring conditions
- Always ensure the wall surface is flat and smooth
- This unit is fitted with a gasket – this must not be removed: the gasket is to stop discolouration of the plate due to natural moisture in some wall finishes
- This product must be fitted only after painting and decorating is complete

- Remove the front plate by placing a medium size flat-head screwdriver in the notch at the side and lever off gently
- Connect to the mains supply ensuring the correct polarity is observed:
L – LIVE – Brown
N – NEUTRAL – Blue
⏏ – EARTH – Green/yellow
- All earth connections must be made and maintained. Use green/yellow sleeving on earth conductors that are not insulated
- Check all electrical connections are secure with all exposed copper within the terminal and no loose strands of cable
- Fit the unit into a suitable wall box taking care not to compress, damage or trap any cables, and secure with the screws provided. If using metal mounting boxes with four lugs, remove the top and bottom lugs or bend fully back
- Clip the front plate onto the main assembly ensuring the screwdriver notch is at the side
- Switch on and check for correct operation

DIMMING PROCEDURE

The switch on this product is touch sensitive and requires only a light pressure.

To turn on / off	Short press
To dim up / down	Long press

The product has a memory function allowing the previously selected brightness level to be retained while switched off.

WARNING

This product must be disconnected from the circuit if subjected to any high voltage or insulation resistance testing. Irreparable damage will occur if this instruction is not followed.

GENERAL

This product contains a light source of energy efficiency class G to Regulation (EU) No. 2019/2015 and (UK) 2021 No. 1095.

This product contains a non-replaceable LED light source and a non-replaceable control gear.

Clean with a soft dry cloth only, do not use aggressive cleaning products or solvents which may damage the product.

This product is dimmable only using its own touch switch, it is not to be dimmed using a separate dimmer switch.

This product should be dismantled for disposal when it reaches the end of its life. Please see website for dismantling instructions.

This product should be recycled in the correct manner when it reaches the end of its life. Check local authorities for where facilities exist.

WARRANTY

This product has a warranty of 2 years from date of purchase. Failure to install this product in accordance with the current edition of the IEE Wiring Regulations (BS7671), improper use, or removal of the batch code will invalidate the warranty. If this product should fail within its warranty period, it should be returned to the place of purchase for a free of charge replacement. ML Accessories does not accept responsibility for any installation costs associated with the replacement product. Your statutory rights are not affected. ML Accessories reserve the right to alter product specification without prior notice.
