

# Intelligent

Based in St Werburghs in East-Central Bristol, they serve the local communities and communities of interest across the city.

Managed by the St Werburghs Community Association, it aims to provide accessible and affordable meeting rooms and facilities for individuals, community groups and voluntary organisations.

Rooms are offered within its characterful Victorian building or contemporary and eco-friendly Annexe.

## St Werburghs Centre Case Study

### The challenge:

The building housed old conventional hand dryers which hardly dried the hands and were very energy hungry.

The requirement was that new units dried the hands quickly enough, but also were energy efficient.

### The results:

Estimated annual cost to use old hand dryers: £180 (based on 12p per kW/h)

Estimated annual cost to use new hand dryers: £18.90 - £47.25 (based on 12p per kW/h)

Annual cost savings: £132.75 - £161.10

Payback period: approx. 3.9 - 4.7 years

**“They make the place more hygienic and people are less inclined to use toilet roll.”**

Jonathan Newey - Centre Director, St Werburghs Community Association

## FACT FILE

<b>Hand dryer:</b>	Dryflow EcoForce
<b>Key benefits:</b>	Fast, low noise, Ioniser, cost saving
<b>Rated power:</b>	0.5 kW - 1.25 kW   1.67 - 3.47 Wh per dry

### The Dryflow Ecoforce

13 precise air outlets provide a gentle, yet effective, low noise drying experience.

Warm air or eco setting.

High speed yet low noise at 70-75 dB(A).

Compact and stylish hand dryer - will complement all washroom décor.

Provides extra freshness to the washroom with a built-in ioniser.
