

Intelligent

Situated on the Thorpe Underwood Estate, set in more than 220 acres of beautiful North Yorkshire countryside, Queen Ethelburga's has provided students with a vibrant and supportive school community since 1912.

Chapter House is one of four schools at Queen Ethelburga's. Overall, the group caters for children ranging from 3 months to year 13.

Chapter House School case study

The challenge:

The school was undergoing a refurb. It was decided they wanted a space saving and energy efficient product which was also value for money. They were to replace slow drying, high energy using conventional hand dryers.

The results:

Estimated annual cost to use old hand dryers: £3733.33 (based on 12p per kW/h)

Estimated annual cost to use new hand dryers: £1078.93 (based on 12p per kW/h)
Annual cost savings: £2654.40

Estimated return on investment period:
Payback period: approx. 2.2 years

They are sleek, stylish and quiet. The design works well with the refurb we've done and they dry your hands compared to previous ones we've had!

Joe Colannino, Assistant Project Manager, Thorpe Underwood Estate

FACT FILE

Hand dryer: Dryflow Elite
Key benefits: Low noise, slimline, cost saving
Rated power: 1.7kW

The Dryflow Elite

The Dryflow Elite combines quiet operation with effective hand drying.

At just 10cm depth these hand dryers take up hardly any space. They are also very quiet whilst still doing a great job of drying the hands. Ideal for a school setting.

Boasting a 17,000-hour motor life and durable brushes for 6500 hours, it outlasts most hand dryers.

Twice as fast as traditional dryers, the Elite is energy-efficient, cost-effective, and low-noise.

Made from high-grade stainless steel in the UK, it's robust and suitable for demanding settings.

Enjoy an Intelligent chat.

With the largest selections of hand dryers in the UK, distributing from our own warehouse, the friendly team at Intelligent Facility Solutions are onhand to help you discover your perfect hand dryer solution - whatever your business type.
