CITY SURFACE BOX S10

Reference

7081

EAN

8424299070810

Description.

Description

- To install a plate it is necessary to place a box on the wall where we will later fix the plate.
- For those cases where a hole in the wall for the embedding box is not desired or cannot be made (marble, stone facades, etc.), it is recommended to use a surface box.
- The depth is only 33mm, and its design integrates perfectly with the aesthetics of the plate. If several plates are combined, it is not necessary to use the spacer set.
- Available in all series. Select the box of the necessary series, as appropriate.
