M6 Raw plug plus nut - 25 pack

Description

M6 raw plug plus nut for simplified installation of pipe clips (9-10954-xx) . The M6 raw plug is secured in the ceiling, after drilling a suitable hole. The nut is then slid into a specially designed slot in the base of the clip, after which the clip simply screws onto the protruding threaded section of the raw plug. Pack of 25 nuts and 25 M6 raw plugs.
