

AB360

6" Fire Bell, indoor use, 24 VDC

General

The AB360 is a 150 mm (6 inch) internal bell designed as an acoustic fire annunciator. Thanks to its small dimensions and overall design, it is ideal for in-door installation. The AB360 uses a 24 VDC supply and with the advantage of having very low current consumption, makes them compatible with most fire alarm systems on the market.

Applications

The AB360 is ideal for installing on any site, but are specifically good for installing on sites where a great number of bells are required. Because of the low current consumption, excessive power supplies can be avoided.

Construction

Designed for ease of installation, the AB360 features a robust steel gong. This ensures the reliable generation, of the universally recognizable fire alarm bell sound.

Details

- Suitable for indoor use
- Slim profile
- Low current consumption - 20mA
- Quick and easy installation
- Diode polarised
- Low maintenance
- Very reliable
- EN54-3 Approved
- CPD compliant

AB360

6" Fire Bell, indoor use, 24 VDC

Technical specifications

Electrical

Operating voltage	19 to 28 VDC
Current consumption	20 mA

Sounder

Output level	95 dB(A)
--------------	----------

Physical

Physical dimensions	150 mm 6"
Net weight	920 g
Colour	Red
Material	Steel

Environmental

Operating temperature	-10 to +55°C
Environment	Indoor
IP rating	IP21C

Regulatory

Certification	EN54-3
