

BGP-KEYASS fitting/assembly

PD-357 Issue 2

BGP-MODULE-A module with no camera
BGP-MODULE-V module with camera

This module needs to be removed before the keypad can be replaced

6 Nuts/washers holding the module to the plate.
Note - the module lid needs removing first to gain access.

BGP-KEYASS Keypad kit parts

- 16 Button keypad
- Clear plastic PCB protective sheet
- 2 Ribbon cables
- 4 Nuts (M3)
- 4 Washers (M3)

Unplug the microphone cable and reroute across the new keypad

BGP-KEYASS Keypad

- Fit the longer 10 way ribbon cable if the Bellagio panel has a Proximity/Fob reader

Clear plastic sheet lays against the back of the PCB over the 4 mounting studs

Fix the keypad/plastic sheet in place with 4 washers and locking nuts. Once tight back each nut by 1/4 of a turn.

Microphone
