Security to Access

2EASY

VIDEO ENTRY

www.cdvi.co.uk

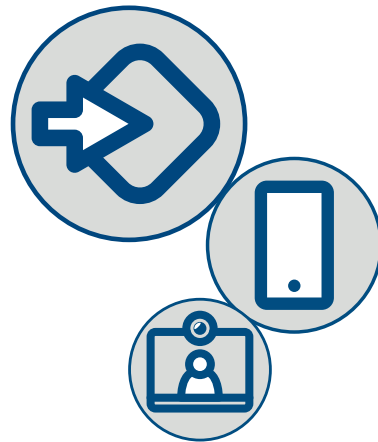

What is 2EASY?

2EASY is a door entry solution that is quick and simple to install and offers audio and video communication for an affordable price. With both a wired and an IP version, 2EASY is adaptable to a wide range of projects. Additionally, the free app allows users to see and speak to visitors from their phone, as well as controlling the door lock remotely*. 2EASY suits both commercial properties and private residences.

*only with a WiFi-enabled monitor

Why 2EASY video entry?

- Seamless integration with ATRIUM online access control
- Free app to control visitor access from a smartphone
- Zero subscription fees or cloud storage costs
- Two-way audio and one-way video communication

Multi-Way Entry

The 2EASY system is ideal for multi-way projects such as apartment blocks. 2EASY 2-Wire can be expanded for up to 128 units. 2EASY IP is ideal for projects up to 256 units. Contact us to learn more about multi-way projects.

Better peace of mind

For residents of single houses, gated communities, or apartment blocks, 2EASY offers the peace of mind of a reliable security system for their home. With no ongoing subscription required, 2EASY is also a cost-effective solution. The sleek black or white indoor monitors coupled with robust outdoor camera stations mean 2EASY suits a wide range of environments and décors.

Making video entry easy

- Free mobile app**
Receive calls and unlock doors remotely
- Real-time connection**
One-way camera and two-way talk
- Troubleshoot support**
FAQ articles & videos to make it easy
- Attractive products**
Blend into any interior environment
- Cost-effective entry**
No monthly payments to keep up

2EASY 2-Wire

The 2EASY 2-Wire system is generally better suited to smaller-scale projects. It requires only a two-wire non-polarised connection, and operates on its own network within the building. Installation is quick and easy with only two wires to think about.

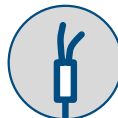

2EASY IP

The 2EASY IP system is a flexible solution for small or larger video entry projects. It's powered by PoE and therefore doesn't require invasive dedicated wiring. Moreover, 2EASY IP can be added to existing building networks to keep things simple.

Capacity

Up to 128-way audio & video communication

Installation

2 wires plus optional Ethernet connection

Network

Operates on its own network

App

Yes - free to download on iOS or Android

Integration

Wiegand connection to ATRIUM access control

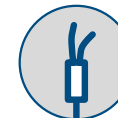

Selection

Choice of monitors and door stations

Capacity

Up to 256-way audio & video communication

Installation

IP cable only - making it quick and simple

Network

Can add to existing building networks

App

Yes - free to download on iOS or Android

Integration

Wiegand connection to ATRIUM access control

Selection

Choice of monitors and door stations

The VDP Connect app is for use with 2EASY video entry systems. It allows the user to connect their entry system to their smartphone. When visitors approach, they push the call button on the external door station. The call can be diverted (either immediately or after 30 seconds of nobody answering) to a named smartphone.

Remote unlocking

When the call is answered in the VDP Connect app, the user can see and speak to the visitor. They can also remotely unlock the door if they wish - for example, for contractors or delivery drivers.

Integrate with ATRIUM

In multi-unit buildings, entry can be enhanced and simplified by integration with online access control.

Many 2EASY 2-Wire door stations are equipped with a proximity card reader. The additional CDV-ACCS module takes the data from the proximity cards and converts it to Wiegand format. The conversion enables connection to the ATRIUM database.

Combine video entry and access control into one simple system.

ATRIUM
ACCESS CONTROL

2EASY is an intuitive system designed to make video entry simple. But if you need installer support, or end users need help with the system, we're here for you. There are a wide range of resources online to help with troubleshooting and FAQs. And if it's a tricky installation, you can contact our expert tech support team for help.

Unprecedented Scalability

2EASY IP

As standard, 256 2EASY IP monitors can be connected to a single door station. For complex building systems, 2EASY IP accommodates up to **8000** monitors on a single network. Scalability on this level is ideal for gated communities, student accommodation, and large apartment complexes.

Please contact the CDVI Technical Support team for specialist advice for any project of more than 256 monitors.
