

Fluorine Free Foam Fire Extinguisher

Part Number: FOEX6FF, FOEX9FF

Fluorine-free foam fire extinguishers boast incredible ratings: 27A 144B for 6ltr units and 34A 183B for 9ltr units. The internationally recognized BS Kitemark further assures this dependability in design and manufacturing.

When tackling a Class A fire, enviroFoam Fluorine Free Foam works by rapidly cooling the burning material. The foam acts as a wetting agent, resulting in excellent and effective surface coverage of charred material. The foam also 'sticks' to the surface of the material, further helping cool the fire. On a Class B fire, it creates a layer of dense foam that rapidly forms a blanket on the surface of the fire. This cuts off the oxygen supply, quickly extinguishing the fire. The foam blanket also helps to cool the fire, further preventing reignition.

- Fluorine free foam concentrate contains no PFAS, making them completely environmentally friendly
- The range is available in 6 and 9 litre capacities to suit a variety of applications
- Easy and ergonomic operation that offers fast and effective extinguishing
- Design allows for economical maintenance and service, as well as the possibility of multiple refilling
- Tough, corrosion resistant finish that's resistant to UV rays
- Interior of cylinder features anti-corrosive layer
- European manufacture
- 5-year warranty

Technical Specification	FOEX6FF	FOEX9FF
Size H x W x D (mm)	501 x 198 x 160	576 x 185 x 185
Weight (kg/lbs)	9.3	14
Capacity	6ltr	9ltr
Fire Rating	27A 144B	34A 183B
Extinguishing Medium	Fluorine Free Foam	Fluorine Free Foam
Working Pressure	15 bar	15 bar
Temperature Range	0° to +60°C	0° to +60°C
Cylinder Material	Steel	Steel
Pressuring Gas	Nitrogen	Nitrogen
