ONVIF® | S G T M

Honeywell's new and improved 60 Series 5MP AI outdoor bullet cameras now offer LPR with enhanced video/object analytics that highlight intricate details such as license plates, persons, objects, and vehicles. Engineered for exceptional image clarity in low or fluctuating lighting, these rugged cameras serve as a strong visual deterrent and are built to withstand harsh outdoor environments. These cameras feature the latest FIPS 140-3 encryption standard and include expanded local storage capacity of up to 1 TB, making them an ideal solution for enterprise-level deployments where cybersecurity and regulatory compliance are critical.

ENHANCED DETECTION AND IMAGING

- Upgraded WDR (up to 140 dB) to significantly reduce image glare
- Increased IR distance (up to 100 m (328 ft))
- P-Iris/DC-Iris and improved minimum illumination (0.007 Lux@30 IRE) provides better image quality in variable or low light conditions
- Improved shutter speed (1/100000 ~ 1/5) allows faster capture of moving subjects, reducing motion blur and producing sharper images
- Enhanced 3D noise reduction eliminates visual noise resulting in crisper details for identifying objects or people in video footage
- Smart IR Technology automatically adjusts to changing light conditions and object distances for better capture of details even in dimly lit or nighttime scenes

INTELLIGENT SURVEILLANCE

- New and improved probabilistic AI video object analytics to quickly detect suspicious activities and identify attributes such as faces, vehicles, gender, age, colors of cars or personal attire for faster investigative search
- License Plate Recognition (LPR) - requires additional license (ordered separately)
- Visible bounding boxes with MAXPRO integration
- Supported in the Milestone plugin intelligent search

INCREASED OPERATIONAL EFFICIENCY

- System security enhancements with Secure Boot and latest FIPS 140-3 chipset provide secure data integrity and privacy
- Upgraded local storage (up to 1 TB) or 4X the amount of previous models significantly boosts camera data management and retention capacity
- ONVIF Profile M allows analytics metadata and events to be securely and seamlessly integrated within video surveillance systems for better operational decision making
- Enhanced reader interface with Wiegand support
- Built-in PoE eliminates need for separate power supply and associated wiring
- Remote configuration, motorized zoom adjustments and auto-focus can be performed from web client or NVR

RUGGED, FLEXIBLE, COMPLIANT

- Built for challenging environments (IP66, IP67, NEMA 4X, TS-2, IK10)
- Flexible wall, pole, or ceiling mount options
- NDAA and NIS2 compliant

POTENTIAL APPLICATIONS:

- License Plate Recognition
- Parking Lots / Garages / Access Gates
- Entryways
- Receiving / Loading Docks
- Outdoor Public Areas / Grounds / Campuses / Plazas
- Passenger Terminals / Operations / Maintenance Areas

INDUSTRIES:

- Large Commercial Office Buildings
- Manufacturing / Logistics / Warehouses
- Hospitals / Healthcare Facilities
- Schools / Universities
- Stadiums / Event Venues
- Hotels / Hospitality
- Gaming / Casinos
- Airports / Train Stations / Bus Terminals
- Banking
- Datacenters
- Pharma
- Government/Military Installations
- Retail (Big Box)
