

PENDANT Mk4 PEN4RC (Inhibit motion sensor shoe)

Description: The PEN4RC Pendant storage shoe is specifically designed to deactivate the pendant's motion sensor when it is placed inside the PEN4RC. Just insert the pendant into the storage shoe, and the motion sensor will be turned off automatically. Once the pendant is taken out of the PEN4RC, the motion sensor will reactivate on its own.

This storage shoe can also be utilized even if the pendant does not feature motion sensor capabilities.

Part code: PEN4RC

It's perfect for lone workers in environments such as schools, expansive farms, industrial areas, and similar settings.
