

Datasheet

PROFILBT - Backlit keypad with smartphone connection

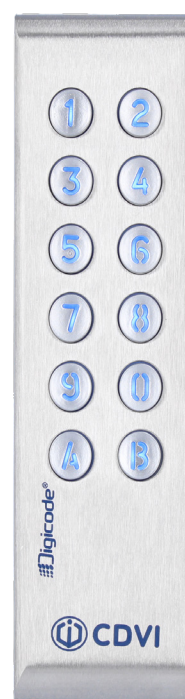

Product Description

PROFILBT is a keypad with remote electronics and 3 relays. Thanks to its connectivity, PROFILBT allows users to program codes and manage settings using their smartphone with the free My Digicode app.

My Digicode enables users to share access rights via email, not a code. Temporary access rights are customisable. Residents may offer visitors unlimited use of their access, use only at specific times or on specific days, or a fixed quantity of uses.

My Digicode is also supplied with a widget for smart watches* to instantly and conveniently authorise access to a property.

**Currently only available for Apple watches.*

Key Features

- Vandal resistant standalone keypad
- My Digicode app & widget available for Android and iOS
- Up to 100 user codes
- Blue backlit keypad keys
- Easy share access capabilities
- Internal or external use
