

STP-PSU5A-24

24VDC 5 AMP MULTI-INDICATOR POWER SUPPLY UNIT

Boxed power supply providing a 24Vdc output for powering access control products such as keypads or maglocks or electric releases. This power supplies battery back-up feature enables uninterrupted power during mains failure when fitted with an optional lead acid battery

FEATURES

- 24Vdc
- 5amp
- Metal box
- Hinged lid
- 305(H) x 304(W) x 85(D)mm

TECHNICAL INFORMATION

- Mains input - 220-240V AC 50/60Hz
- D/C output - Full stated load @ 27.6Vdc excluding battery charging circuit
- Load volt regulation - 5% maximum
- Output ripple - < 5% of the nominal dc output voltage
- Environment - Ambient temp -20 to 40 degrees
- Battery - 24V sealed lead acid maximum 2 x 7ah
- Fault indicator LED (red) - Fuse blown fault
