

## TI-RG262i 26-Port Industrial Gigabit L2 Managed Rackmount Switch

This Industrial Gigabit L2 Managed Rackmount Switch provides an intuitive web-based management interface. Contact us to learn more!

### L2 Management

Provides an easy to use web management interface for traffic management controls such as VLAN, QoS, access controls, link aggregation, troubleshooting, SNMP monitoring, and per port MAC restriction.

- 24 x Gigabit ports, 2 x SFP ports
- Supports Ethernet Ring Protection Switching (ERPS)
- Supports 100/1000Base-FX fiber SFP modules
- CLI (Console / Telnet / SSH), Web (HTTP / HTTPS), SNMP v1 / 2c / 3 management
- Power supply sold separately (model: TI-S15052)

### Industrial Design

Equipped with an IP30 rated metal enclosure, designed to withstand a high degree of vibration and shock, while operating within a wide temperature range of -40° - 70° C (-40° - 158° F) for industrial environments.

### Rackmount Design

This sturdy metal housing switch is well-suited for 19" 1U rack installations with included rackmount brackets.
