TVB-1101, TVB-1102, TVB-1103

TruVision IP S3 fixed lens bullet cameras:

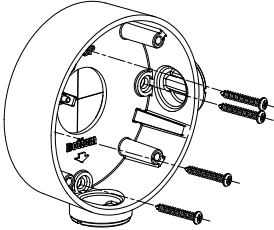

TVB-5301, TVB-5302

Installation

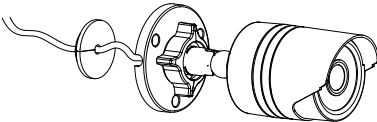

Follow all local safety regulations and the fixed bullet camera installation instructions while installing the camera and accessories.

To attach a fixed lens bullet camera to a TVB-BB1 back box:

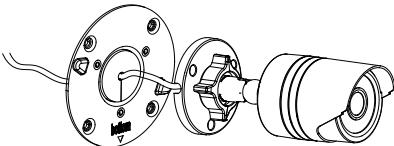

1. Use the drill template to mark the mounting holes.
2. Align the cable access holes in the required orientation. Install the back box to the mounting surface using the four screws (C) and drywall anchors.

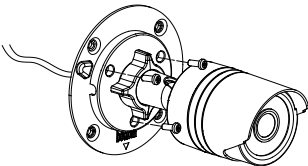

3. Run the cable harness through the rubber plug, which can be found on the adapter plate.

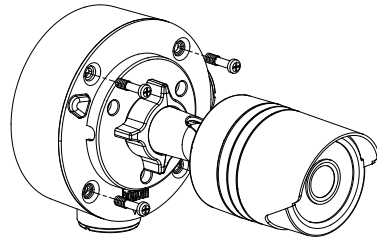

4. Insert the rubber plug in the adapter plate.

5. Install the bullet camera on the adapter plate using the three screws (A).

6. Make the proper connections to the camera cable harness and conceal the cables inside the back box. Install the adapter plate on the back box using the four screws (B).
