

TruVision TVB-CM Corner Mount Adapter Installation Instructions (for S6 VF Bullet Cameras without cable harness)

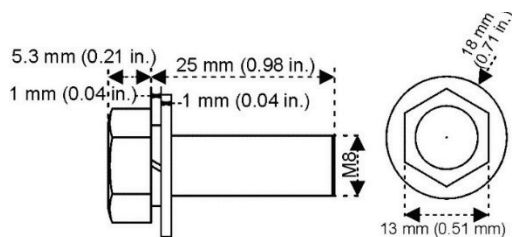

Dimensions

Dimensions: 250 × 180.1 × 105 mm
(9.84 × 7.09 × 4.13 in.)

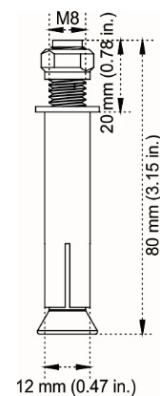

Accessories:

Screw A: SC-HSFM8×25-SUS, four pieces with flat washer. (Used to install an S6 Bullet VF Lens Camera (w/o cable harness) to the corner mount adapter.)

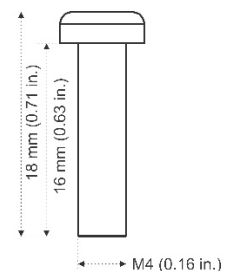

Anchor B:

Expansion anchor, four pieces (Used to install the corner mount adapter to the mounting surface.)

Screw C

Four pieces (Used to install the bullet camera adapter plate to the corner mount adapter.)

Weight:

1.939 kg (3.056 lb.)

Supported cameras

The corner mount adapter can be used with the following bullet cameras:

TVB-5604, TVB-5605, TVB-5606

Installation

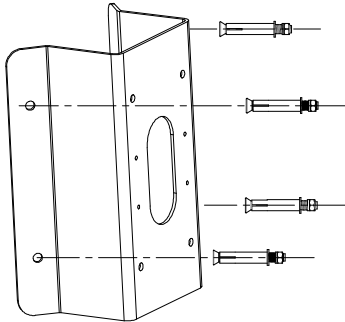

For detailed instructions, refer to the installation guide for the camera that you are installing. The following requirements are mandatory precautions.

- The wall must be thick enough to install the expansion anchors.

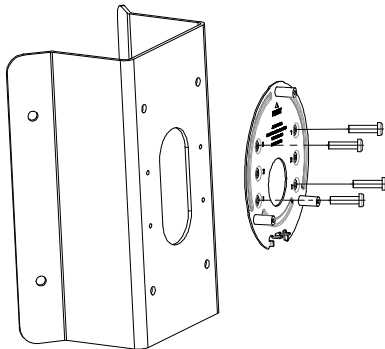

- Ensure that the wall is strong enough to withstand more than eight times the weight of the camera and corner mount adapter.

To attach bullet camera to the corner mount adapter (TVB-CM):

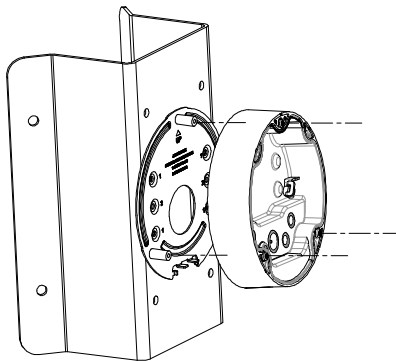

1. Mark the surface and drill four mounting holes. Install the corner mount adapter to the corner of a building using anchor B. Route the cables through the corner mount before bolting the corner adapter to the mounting surface.

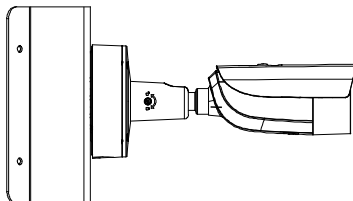

2. Install the bullet camera adapter plate to the corner mount adapter with screw C.

3. Install the bullet camera back box to the adapter plate.

4. To complete the installation, refer to the installation instructions for the specific bullet camera.
