

VRK Series

STAINLESS STEEL AUDIO SYSTEMS

The vandal resistant door entry systems have been devised for buildings that may be prone to external vandalism. Each kit provides all the components necessary to install a complete audio system including a surface lock release as standard. These made-to-order systems can be ready in as little as 2/3 working days. The panels are available as either surface or flush mount, flush mount panels can be customized to suit an existing aperture as long as all components required, fit within the new panel and backbox. Text and font choices can be requested at the time the engraving template is sent. Panels will never be made until the template is signed off and approved. Brass panels are available as flush only, additional charges will apply.

PANEL DIMENSIONS WILL VARY DEPENDING ON REQUIREMENTS:

- Size 1 – 100mm x 252mm
- Size 2 – 100mm x 348mm
- Size 3 – 100mm x 444mm
- Size 4 – 180mm x 444mm

EACH KIT COMPRISES OF:

- Model 801 telephone, one for each station
- Model VRP front door panel
- Model 61 speech unit
- Model PS4A 12v DC 4 amp PSU
- Lock release
- Button numbering is engraved free of charge, additional engraving is charged per character
- Full wiring and installation instructions

OPTIONAL:

- Trades facility (adds an additional button and includes a TS2000-BST)
- VRP-PLUS is the charge to choose a larger panel from our sizes 1-4 above
- CUSTOM-SIZE allows you to choose your own dimensions, providing we can fit all our components onto the sizes given (Flush Only)
- BRASS, the option for choosing brass instead of stainless steel (flush only)
- VR-ILL-OPT, illuminated call buttons, PSU must be DC (Stainless steel only)
- WIN, an acrylic name window can be used on smaller sized panels instead of permanent engraving
- CUSTOM-LOGO option for having a black only, logo engraved
