

**TAKING SECURITY
TO A NEW LEVEL
HIKVISION INTRUSION ALARM**

HIKVISION[®]

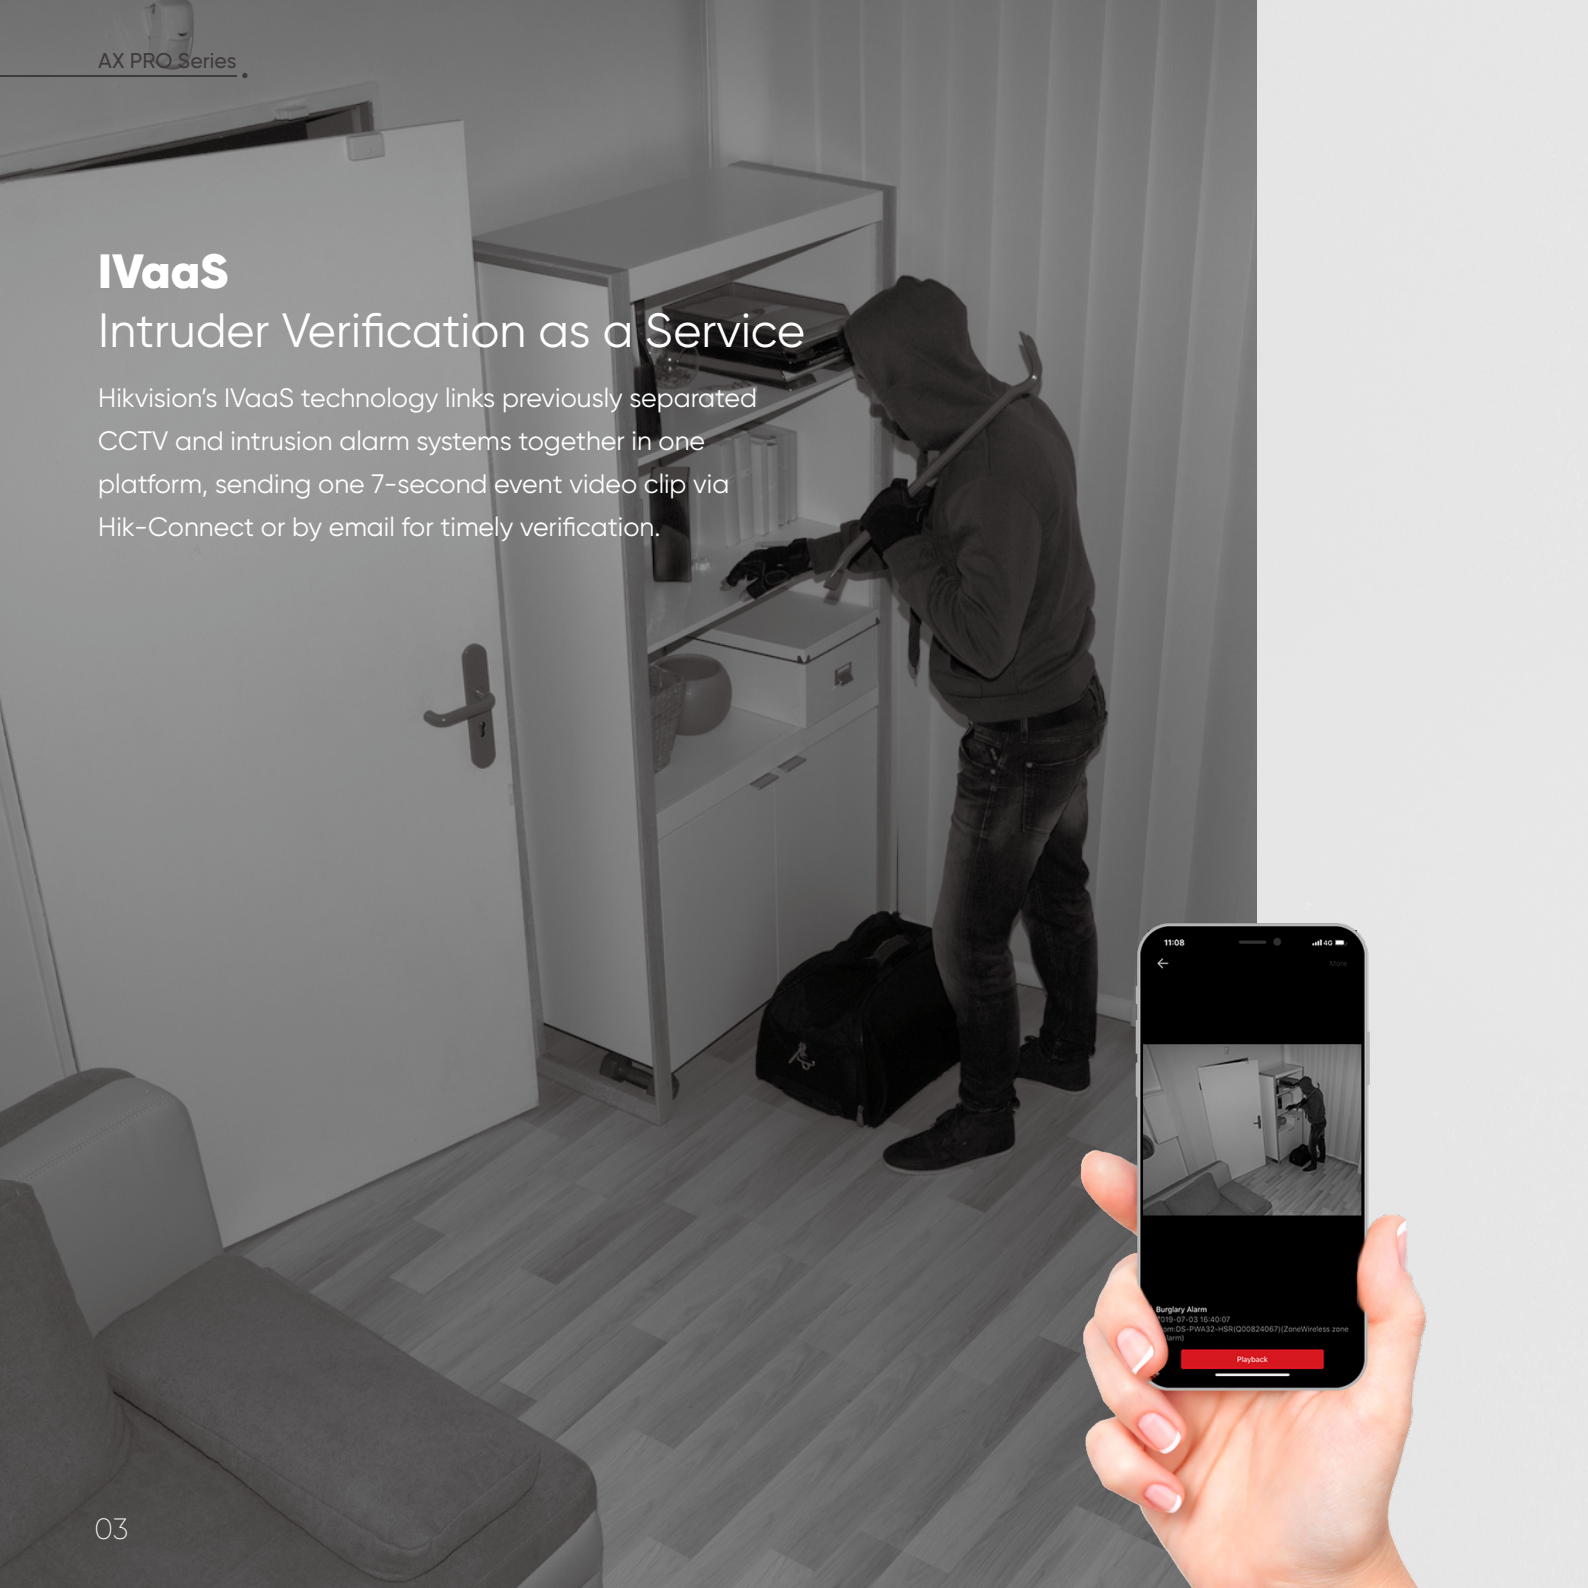

Intrusion Series

HIKVISION Intrusion Series provides top-tier intruder products suitable for a range of market segments and vertical applications.

Equipped with Hikvision's IVaaS (Intruder Verification as a Service) technology, the intrusion series supports flexible linkage with IP cameras or PIRCAMs, generating timely notifications to end-users with video or GIF imaging.

IVaaS Intruder Verification as a Service

Hikvision's IVaaS technology links previously separated CCTV and intrusion alarm systems together in one platform, sending one 7-second event video clip via Hik-Connect or by email for timely verification.

Tri-X & CAM-X Wireless Technology

Fast, reliable and secure, our powerful Tri-X and CAM-X Wireless Technologies deliver the next level of security. They speed up installations while delivering the best experience for both installers and their customers.

Dual RF-Chip Design

Dual-chip design ensures independent communication channels to avoid interference while making sure the data transmission is reliable and secure.

Tri-X Wireless Technology

Up to **2,000** m

CAM-X Wireless Technology

Up to **800** m

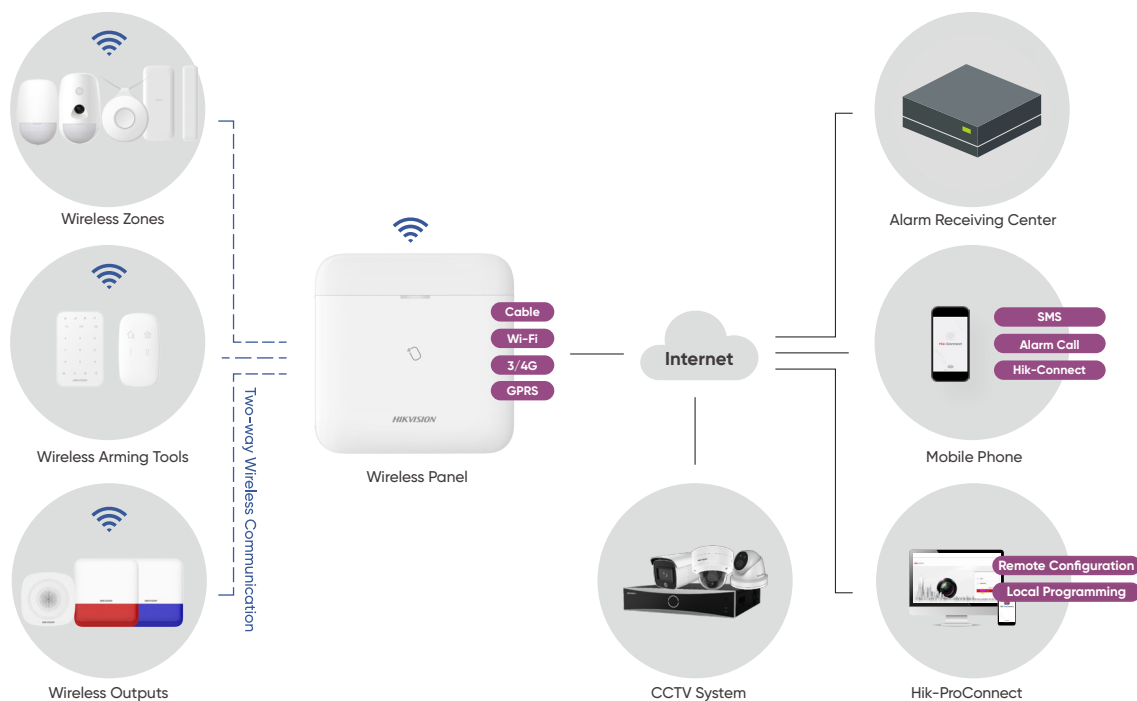

Independent Communication Channels

Eliminates interference across channels and allows super-fast transmission of alarm messages and videos simultaneously.

System Topology

As well as locally controlling the system using keyfob, keypad, tag reader etc, users can also manage and configure the alarm system remotely via mobile app or software platform.

App Programming

Hik-ProConnect is a convergent, cloud-based security solution that helps manage services for your customers and expand your business via subscription offers.

Centralized multi-site & user management

Remote configuration

Installer can add & configure devices, ask for authorization remotely via Hik-ProConnect

Designed Especially for Installers

One tap to arm & disarm system

Check videos & GIF imaging

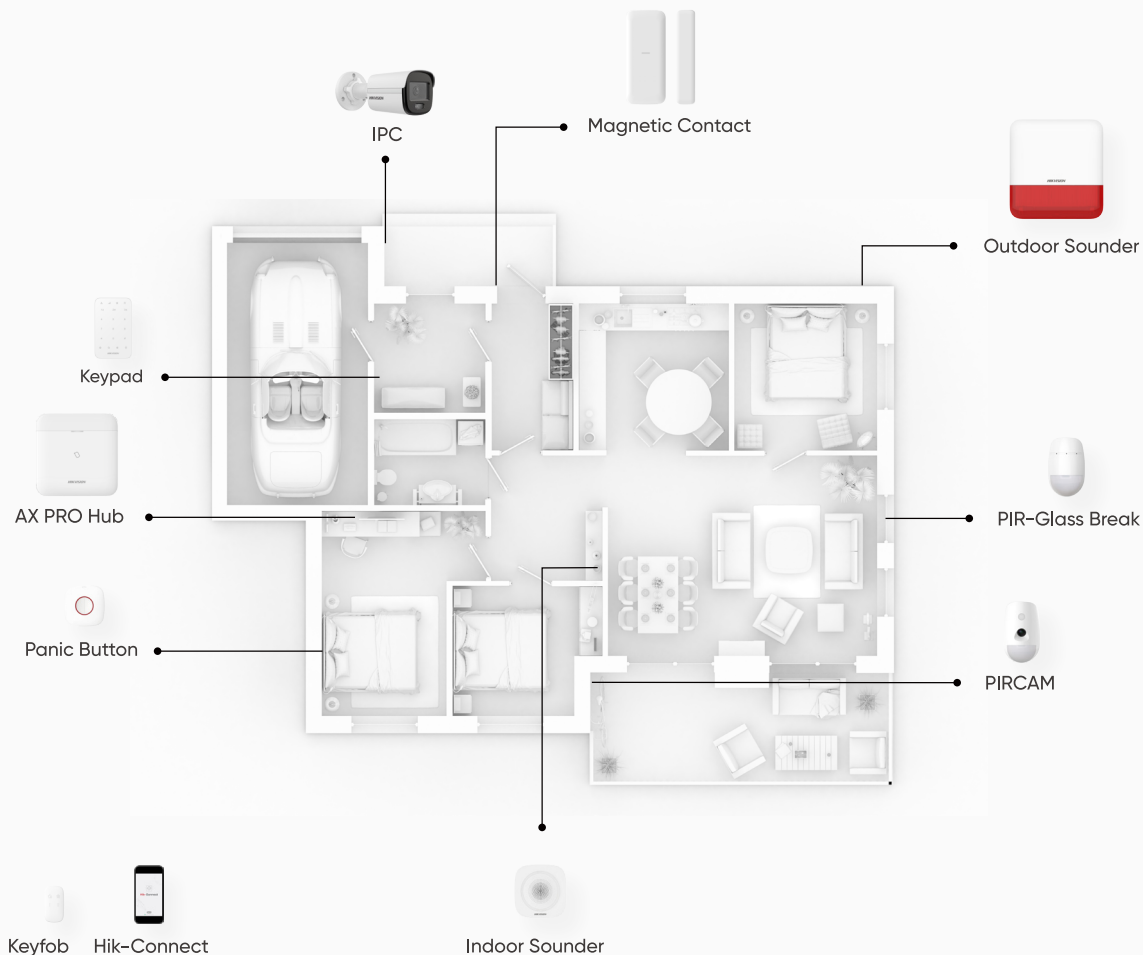

Check system & device status

User Friendly for End Users

Scenario Solution

Covering a wide range of applications from residential homes to small- and mid-size businesses, the AX PRO solution can be flexibly deployed, suiting the needs of various scenarios.

AX PRO Hub

AX PRO works with Wi-Fi, LAN, and GPRS/3G/4G communication methods to make the system more stable and secure. It also supports ISUP and DC-09 protocols to connect with 3rd party platforms. This communication flexibility means multiple applications, from residential and office to commercial buildings, factories, and more, are facilitated.

96 wireless inputs & outputs supported

6 wireless sounders supported

4 wireless repeaters supported

8 keypads & tag readers supported

48 keyfobs & tags supported

32 areas supported

5,000 event logs

RF frequency

IPC and PIRCAM supported

Alarm voice call to end-users

IP module

Dual SIM card design

Hik-ProConnect / Hik-Connect

Wi Fi

Wi-Fi module

Tri-X wireless technology

SIA/CID protocol

GPRS/3/4G module

SMS for alarm events

The small but compact AX PRO panel delivers a friendly experience for all users, catering to their individual habits and requirements.

PIRCAM Detector

Powered by battery and featuring a 12 m range, the wireless PIRCAM detector ensures property remains secured.

CAM-X wireless technology

IFT technology

Digital temperature compensation

Up to 800 m transmission distance

12 m detection range

Up to 30 kg pet immunity

Up to 20 photos compiled into a GIF

Up to 6 years battery life

With PIRCAM,

you can view snapshots of activations to verify alarms

Alerting you even before the intruders realize that they're exposed. When the alarm is triggered, up to 20 photos will be sent to your Hik-Connect app and to the ARC.

Motion Detected

Alarm Triggered

Motion Captured

Detector

Keeping on detecting. Fully programmable via app and featuring smart environment control technology, the wireless PIR based detector really does have it all under control.

Dual-Tech Detector

The PIR and microwave modules built into the wireless dual-tech detector make detection more accurate and stable in extreme conditions.

-  IFT technology
-  Digital temperature compensation
-  Up to 1,600 m transmission distance
-  12 m detection range
-  Up to 30 kg pet immunity
-  PIR + microwave technology

PIR Curtain Detector

With excellent detection range and technology, your windows and doors are completely protected.

-  IFT technology
-  Digital temperature compensation
-  Up to 1,600 m transmission distance
-  15 m detection range
-  6.3° narrow angle

PIR-Glass Break Detector

The Wireless PIR-Glass Break Detector offers multiple uses for superior security, so any glass entrances to your property are protected.

-  IFT technology
-  Digital temperature compensation
-  Up to 1,600 m transmission distance
-  12 m detection range
-  Up to 30 kg pet immunity
-  PIR + glass break detection

Magnetic Detector

Utilizing the latest Tri-X wireless technology, the magnetic contact is versatile and easily configurable to suit a variety of needs, detecting the status of windows, doors etc.

Wireless Slim Magnetic Detector

-  Up to 1,200 m transmission distance
-  Discreet installation

Wireless Magnetic Detector

-  Up to 1,600 m transmission distance
-  2-Ch wired zone interface

Panic Button

Discreet and portable, raise an alarm with minimal fuss and straight-forward set up using both fixed and portable wireless panic buttons.

Wireless Panic Button

-  Up to 1,200 m transmission distance
-  One-touch alarm

Wireless Portable Panic Button

-  Up to 1,000 m transmission distance
-  One-touch alarm
-  Accidental press protection, portable accessory

Sounder

Both the internal and external sounder offer up to 110 dB alarm volume, ensuring you're alerted when it matters most.

Wireless External Sounder

-  Up to 1,600 m transmission distance
-  Up to 110 dB sounder output
-  IP 65
-  4 CR123A / 12 VDC

Wireless Indoor Sounder

-  Up to 1,600 m transmission distance
-  Up to 110 dB sounder output

Keypad

Stable, secure and straightforward arming. Fully customizable and robust, the keypad and keyfob are the perfect arming/disarming partner.

Wireless LED Keypad

-  Up to 1,200 m transmission distance
-  One-touch call for help

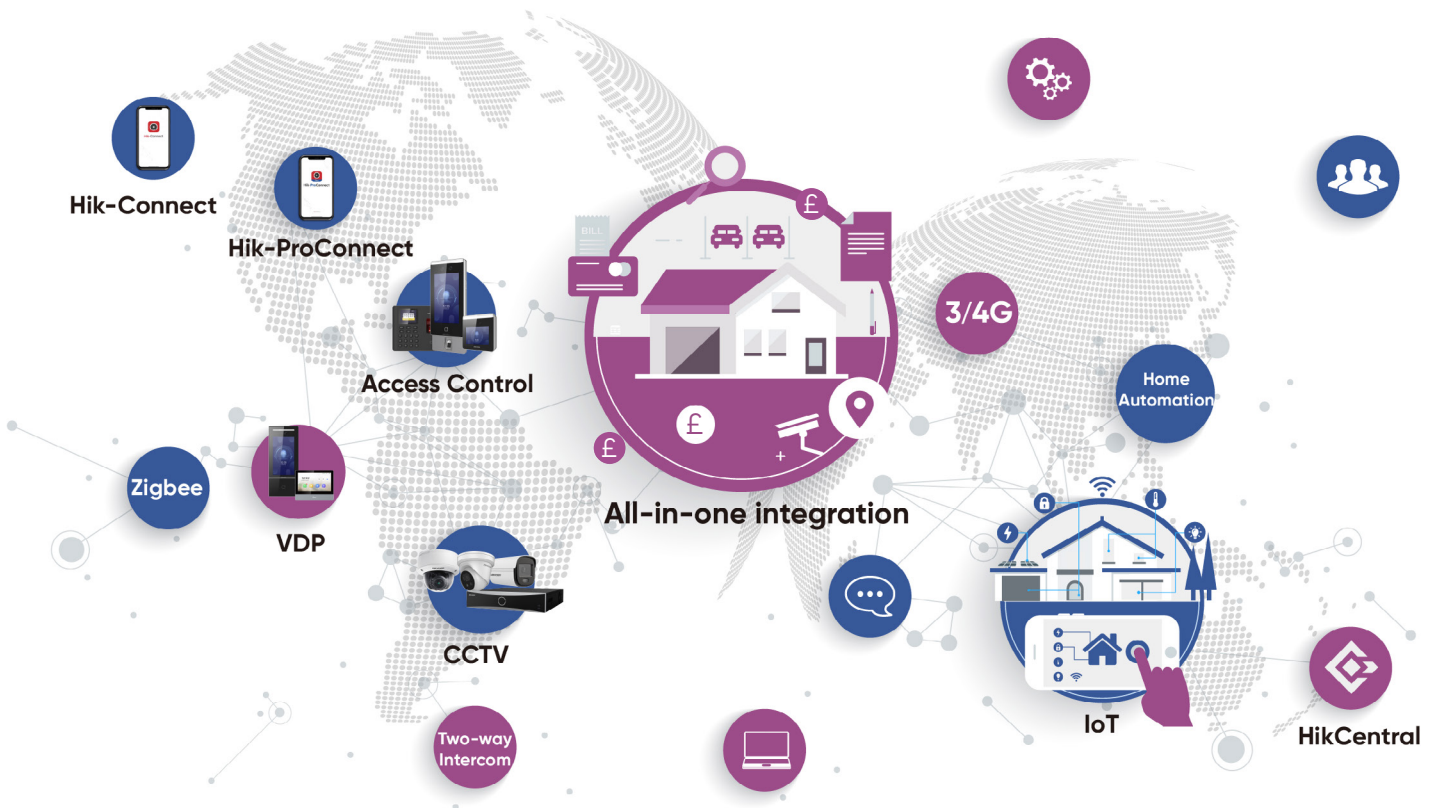

Wireless Key Fob

-  Up to 900 m transmission distance
-  Key combination customization

All-in-one Integration
