INSTALLATION SAFETY INSTRUCTIONS

CAUTION: This mount is intended for use only with the maximum weights indicated. Use with equipment heavier than the maximum indicated may result in instability causing possible injury.

Do not attempt to install this product until all instructions and warnings have been read and properly understood.
Please keep these instructions for future reference.

Please check carefully to make sure there are no missing or defective parts - defective parts must never be used.

B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire.

General

B-Tech AV Mounts recommends that a professional AV installer or other suitably qualified person install this product. Great care must always be taken during installation as most AV equipment is of a fragile nature, possibly heavy and easily damaged if dropped.

If you do not fully understand the instructions or are not sure how to install this product safely, then please consult a professional for advice and/or to install this product for you. Failure to mount this product correctly may cause serious injury or death, both during installation and at any time thereafter.

Do not mount any AV equipment that exceeds the specific weight limit of the product you are installing.

This weight limit will be clearly stated on each product and its packaging and will vary from product to product.

Product location

Please pay careful attention to where this product is located. Check load capacity of the ceiling prior to installation as some surfaces are not suitable for installation. Designed for indoor use, this mount is suitable for public or home installation. If located in a public or frequently populated area ensure that the product is out of the immediate reach of people.

If any AV equipment is to be suspended over the likely path or location of people then great care should be taken to secure all parts of the installation from falling.

When drilling holes it is essential to avoid contact with electrical cables and water or gas pipes contained within.

Use of a good quality live wire detector and hidden object locator is therefore recommended.

Only drill into structures when you are sure it is safe to do so.

Fixing hardware

It is highly recommended that all fixing screws be used where supplied and that the purpose of all other fixing hardware is fully understood. In some cases more AV equipment fixing hardware will be supplied to accommodate different models of equipment and set up configurations. The installer must be satisfied that any supplied fixing hardware is suitable for each specific installation. The fixing kit supplied with the product may not be suitable for all ceilings.

If any fixing screws or included hardware are deemed not sufficient for a safe installation then please consult a professional or your local hardware store.

Hazard limitation

When routing cables take advantage of any built in cable management features that the product might provide and ensure that all cables are tidy and secure. Check to see that any moving aspect of the product can do so unhindered by any cabling. Some products have moving parts and the potential to cause injury through the crushing or trapping of fingers or other body parts. Particular attention to the nature of moving parts is required especially when assembling installing and adjusting during set up. Immediately after installation double-check that the work done is safe and secure. Double-check all necessary fixings are present and are of ample tightness.

It is recommended that periodic inspections of the product and its fixing points are made as frequently as possible (no more than 6 months apart) to ensure that safety is maintained.

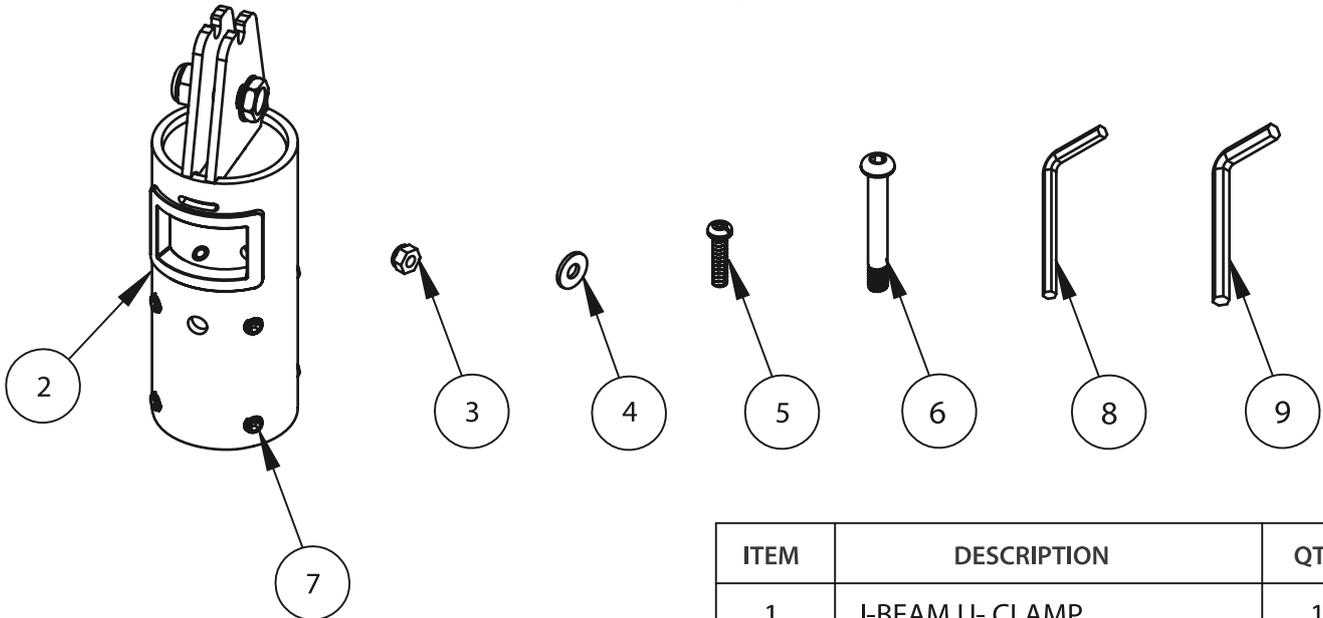

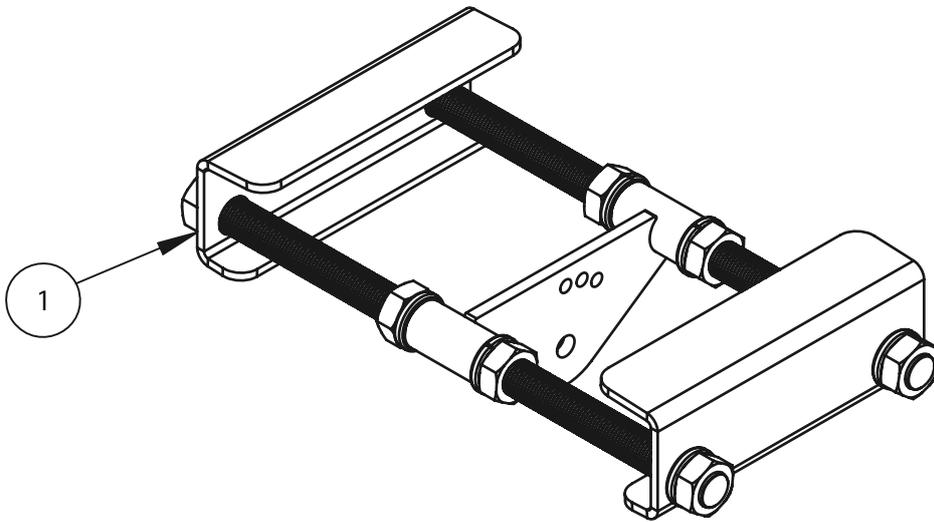

If in doubt consult a professional AV installer or other suitably qualified person.

- CN B-Tech AV Mounts 建议本产品由专业AV安装人员或其他合格人员安装。 B-Tech AV Mounts 及它的代理商、经销商不由于不恰当的安装而造成的损失或伤害负责。 本产品必须安装在合适的架构上，并仅用于不超过所标示的最大承重。

INSTALLATION TOOLS REQUIRED

Adjustable
Spanner / Wrench

Crosshead
Screwdriver

| ITEM | DESCRIPTION | QTY |
|------|---------------------------|-----|
| 1 | I-BEAM U- CLAMP | 1 |
| 2 | CLAMP TUBE ASSEMBLY | 1 |
| 3 | M6 NYLOC NUT | 1 |
| 4 | M6 METAL WASHER | 2 |
| 5 | M6 x 25mm SCREW | 1 |
| 6 | M8 x 60mm HEX SAFETY BOLT | 1 |
| 7 | M8 x 6mm GRUB SCREW | 8 |
| 8 | 4AF HEX KEY | 1 |
| 9 | 5AF HEX KEY | 1 |

Suitable for loads up to 140kg (308lbs)

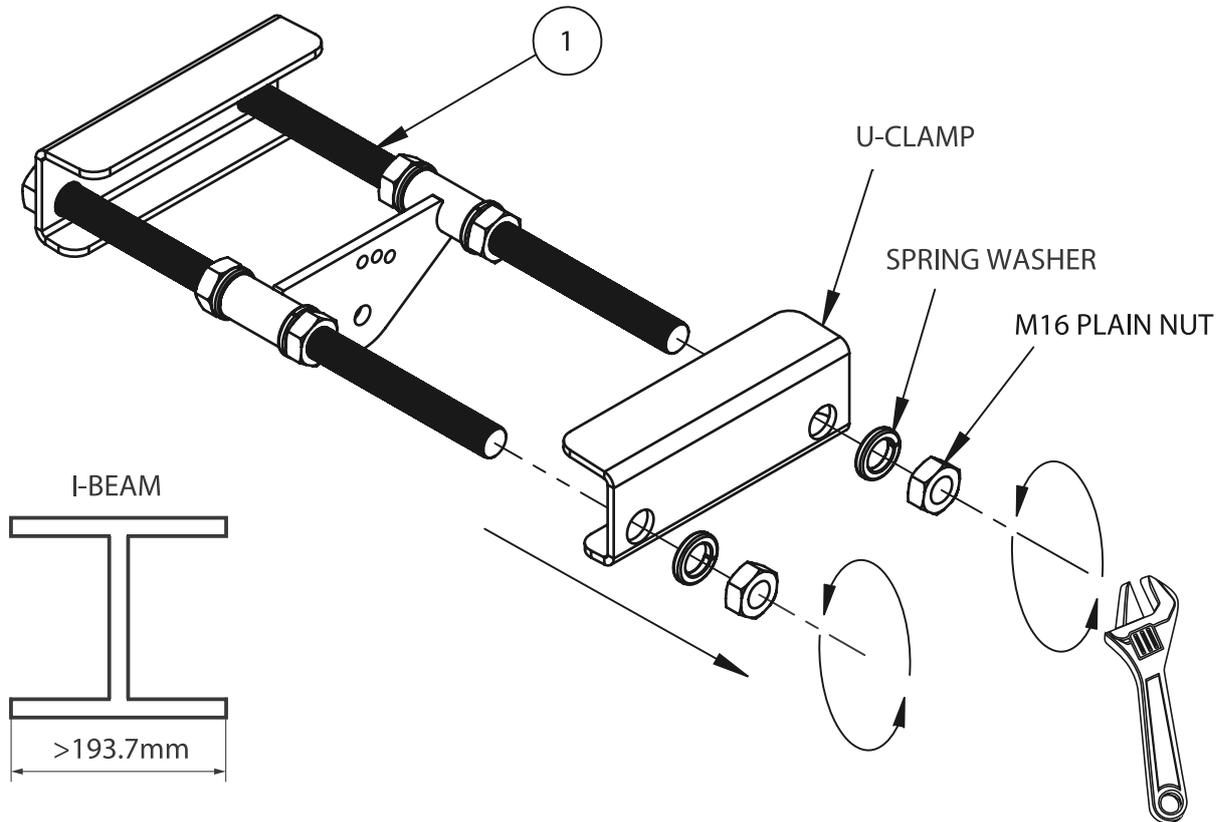

INSTALLATION INSTRUCTIONS

1. PREPARE CLAMP TO FIT I-BEAM

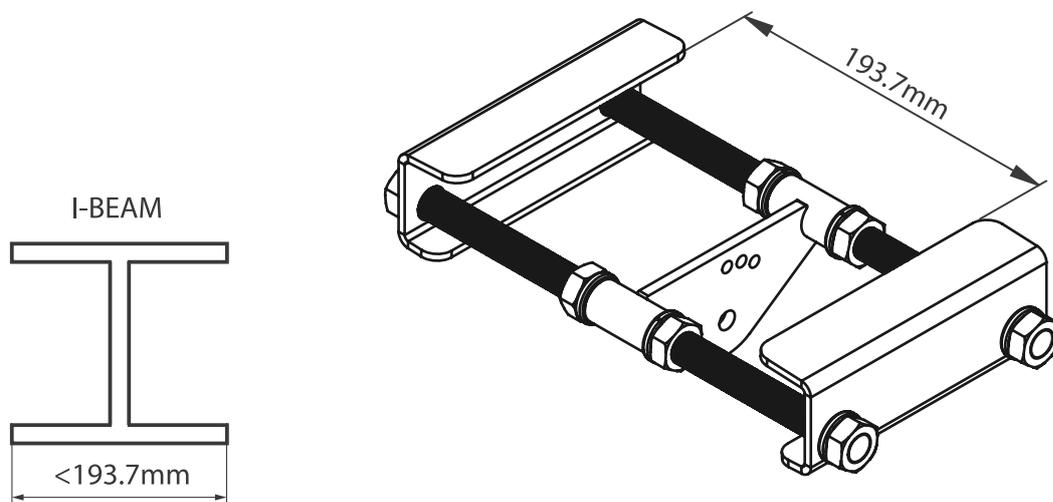

If the I-beam is wider than 193.7mm, detach one side of *item 1* (including the U-Clamp, Spring Washer & M16 Plain Nut).

Note: Do not perform this step if the I-beam is under 193.7mm, keep the M16 Plain Nuts on both side at max distant.

a. I-Beam is over 193.7mm wide

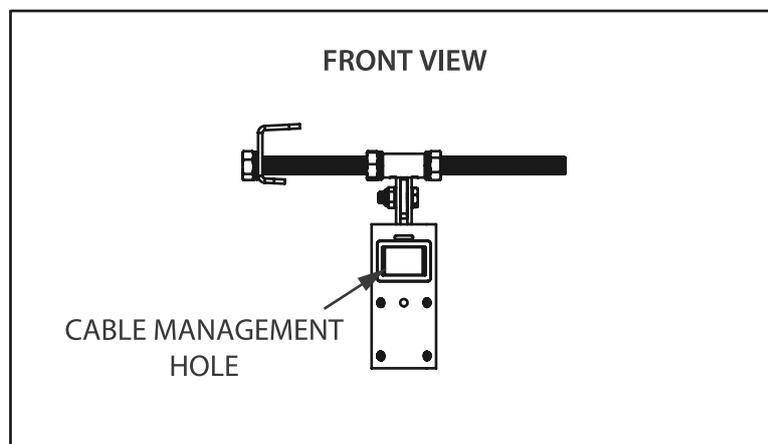

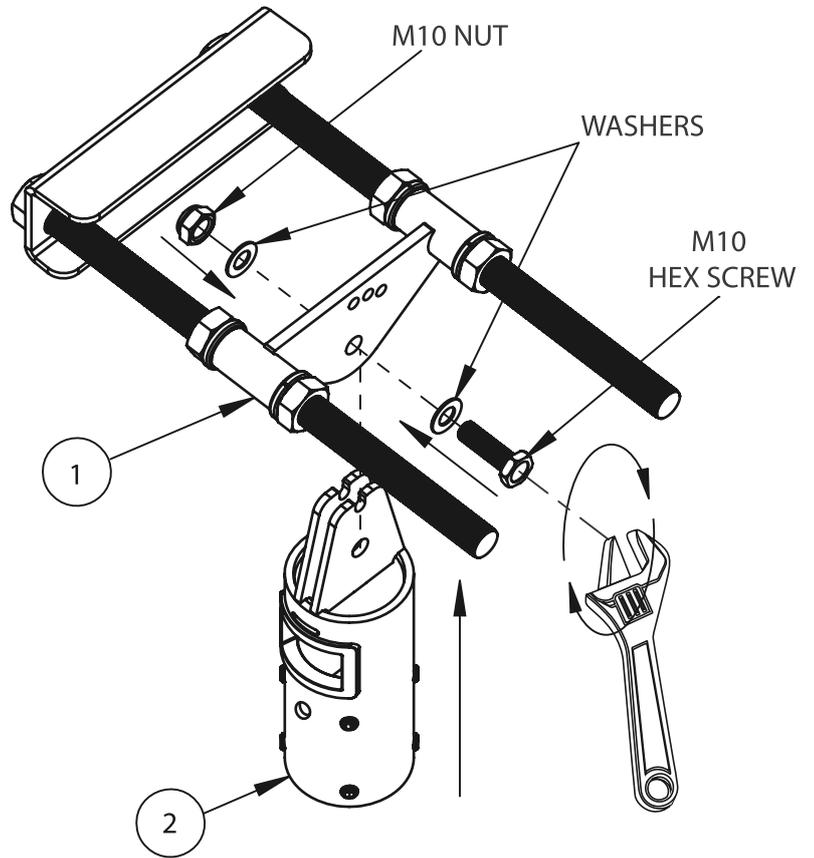

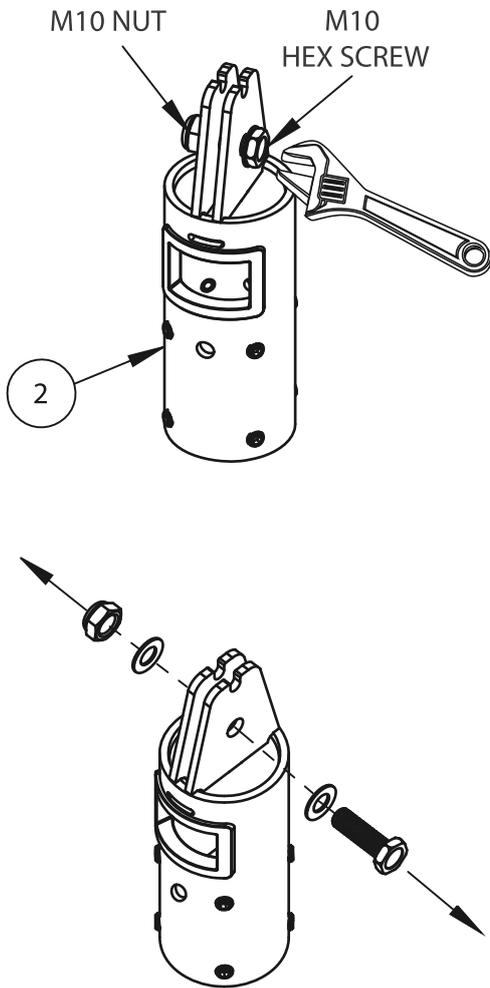

b. Do not unassemble if I-Beam is under 193.7mm wide

2. CONNECT TUBE ASSEMBLY TO CLAMP

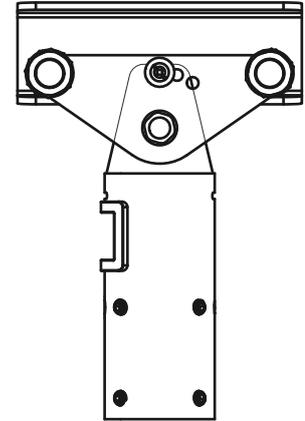

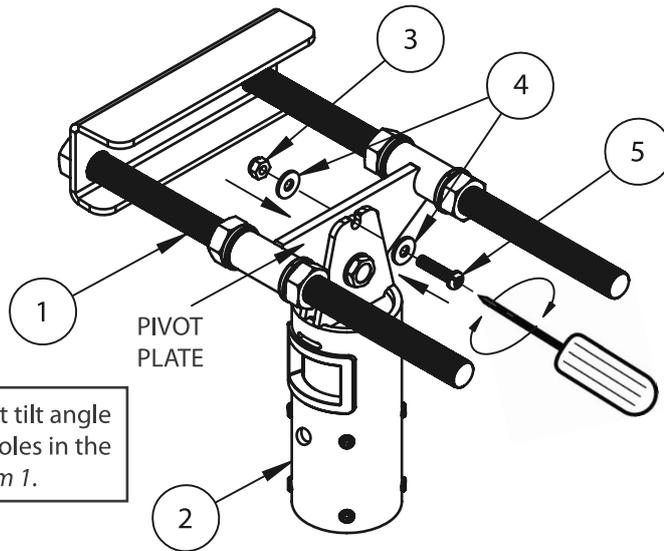

- i. Remove the M10 hex screw, washers and M10 nyloc nut from *item 2*.
- ii. Attach *item 1* to *item 2* using the M10 hex screw, washers and M10 nyloc nut.

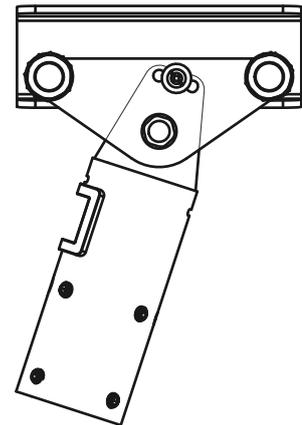

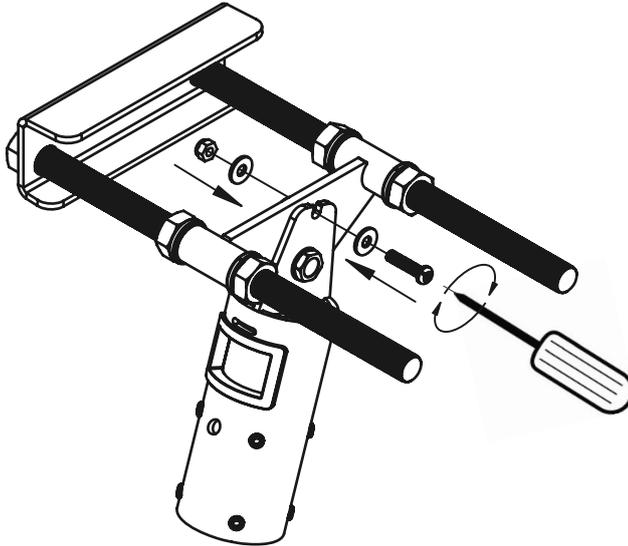

3. SET TILT ON MOUNT

Fix the set tilt of *item 2* on *item 1* using *items 3, 4 & 5*.

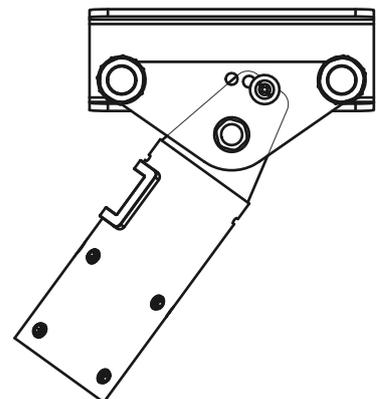

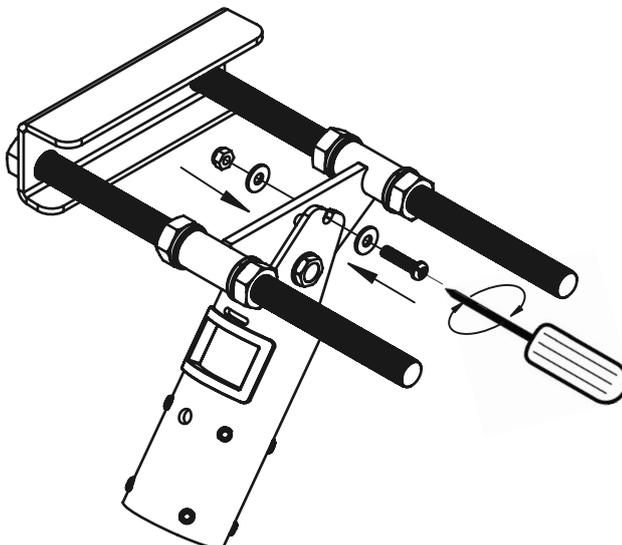

a. 0° Tilt

b. 18° Tilt

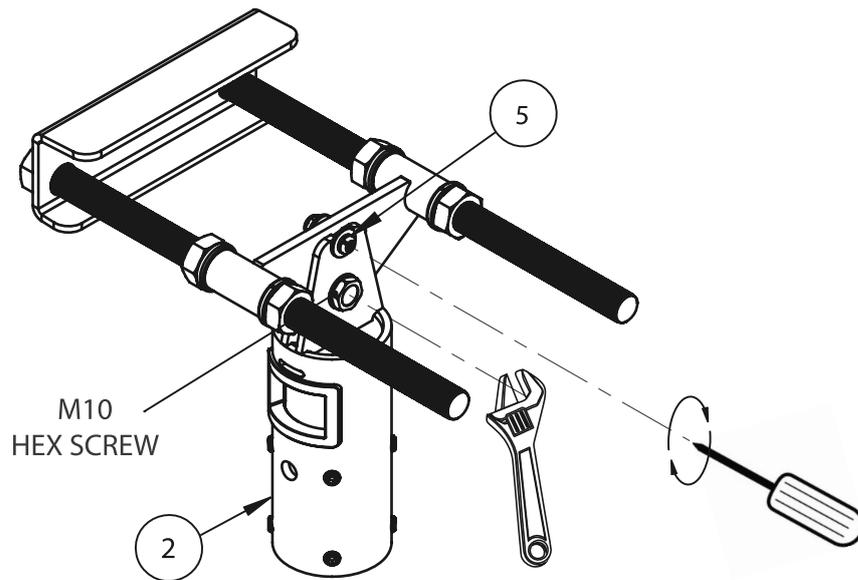

c. 36° Tilt

4. FIX TILT ANGLE

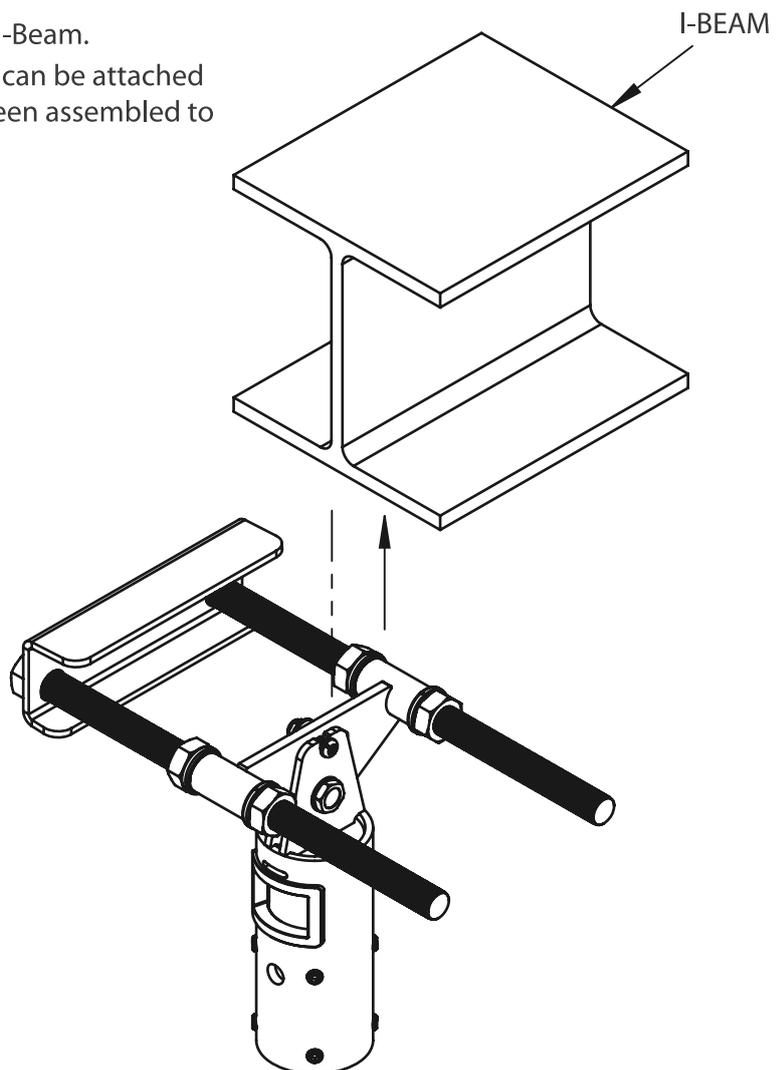

Fully tighten both *item 5* and the M10 hex screw on *item 2*.

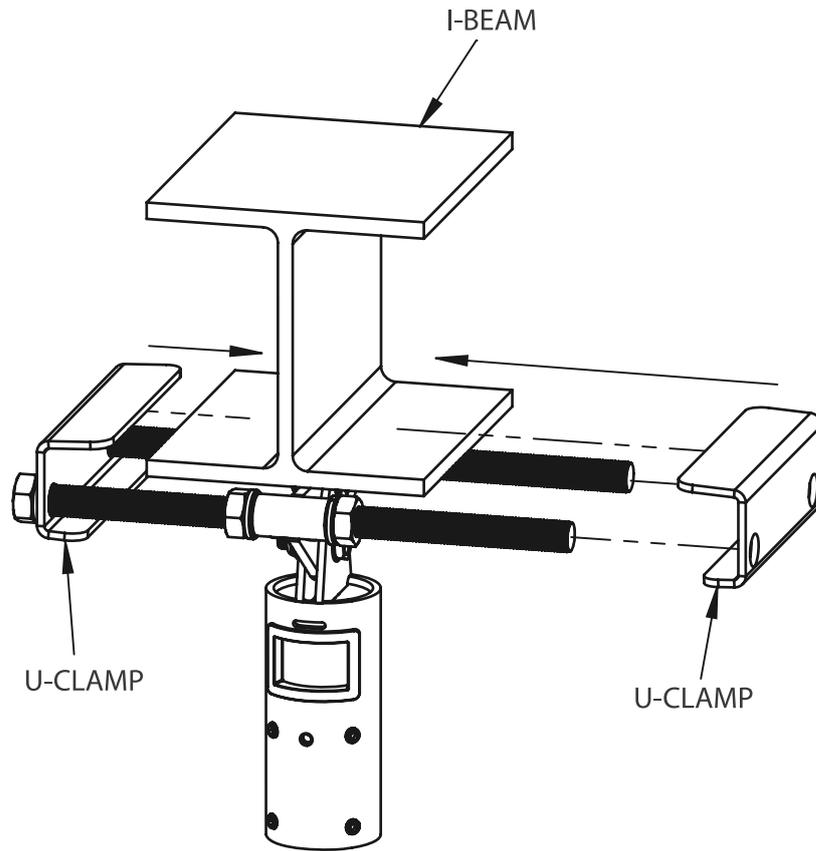

5. MOUNT BRACKET TO I-BEAM

i. Place the bracket onto to the I-Beam.

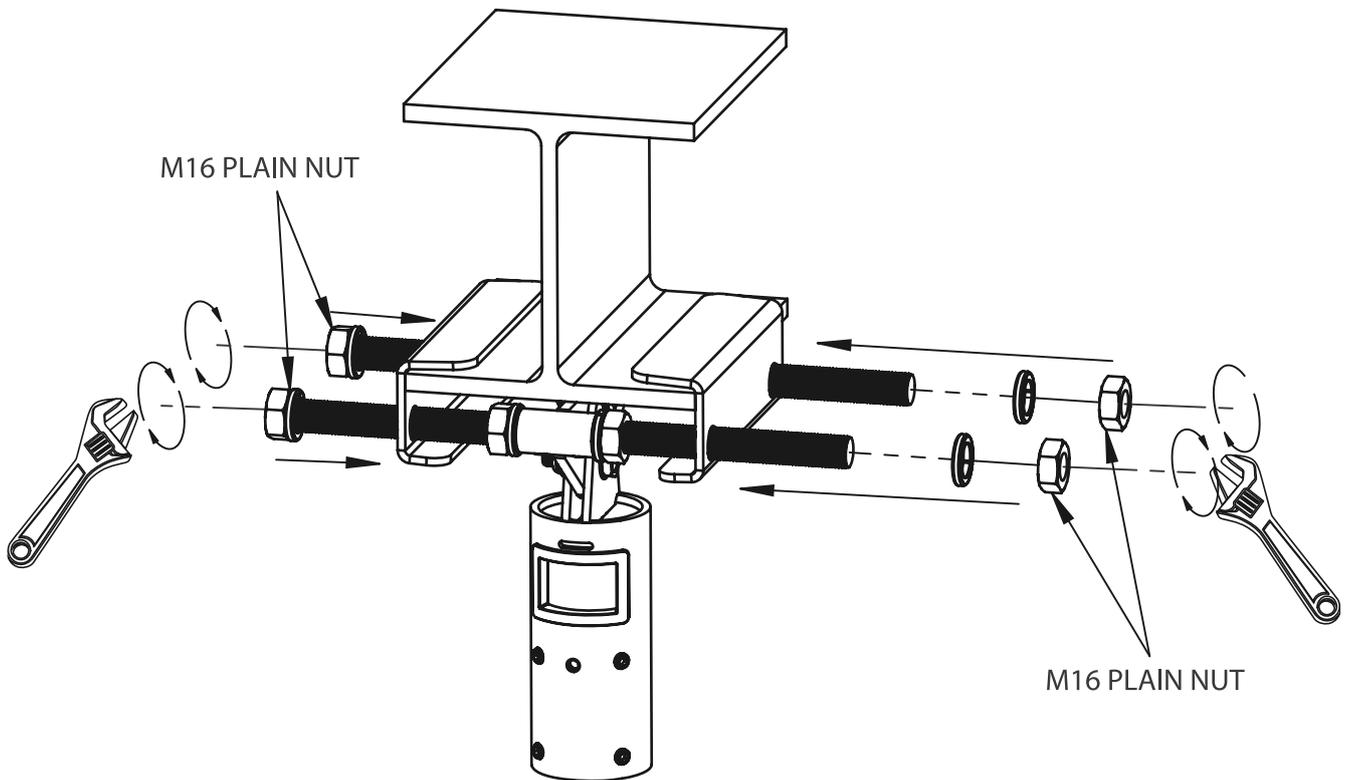

Note: The pole (*sold separately*) can be attached before or after the clamp has been assembled to the I-Beam.

ii. Position both U-Clamps onto the I-Beam.

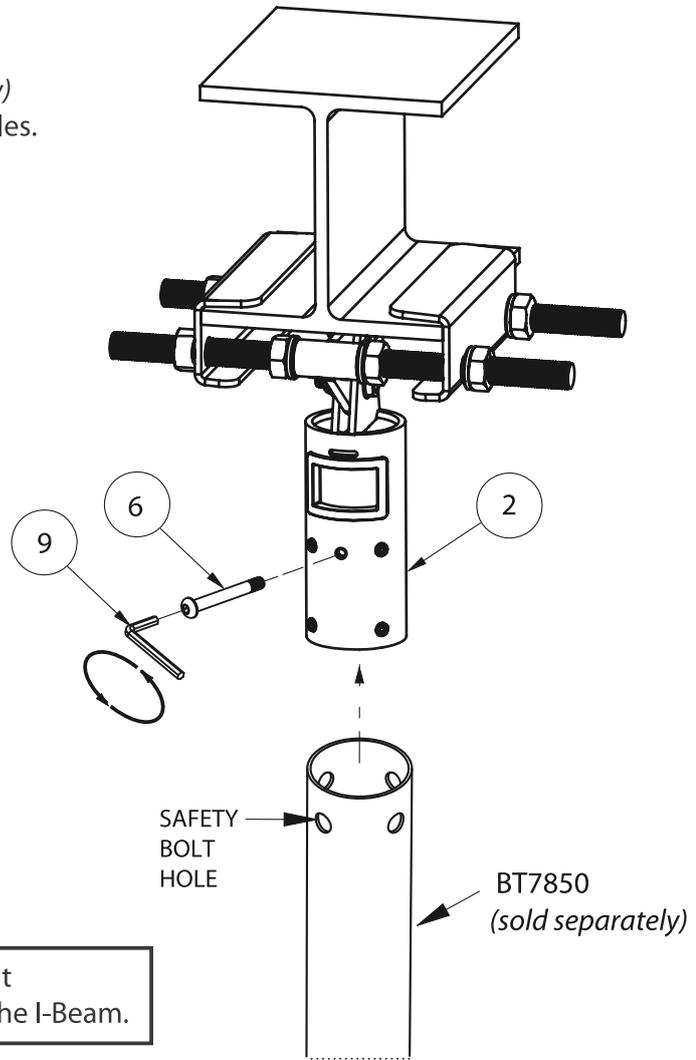

iii. Tighten the M16 plain nuts and washers on both sides of the clamp.

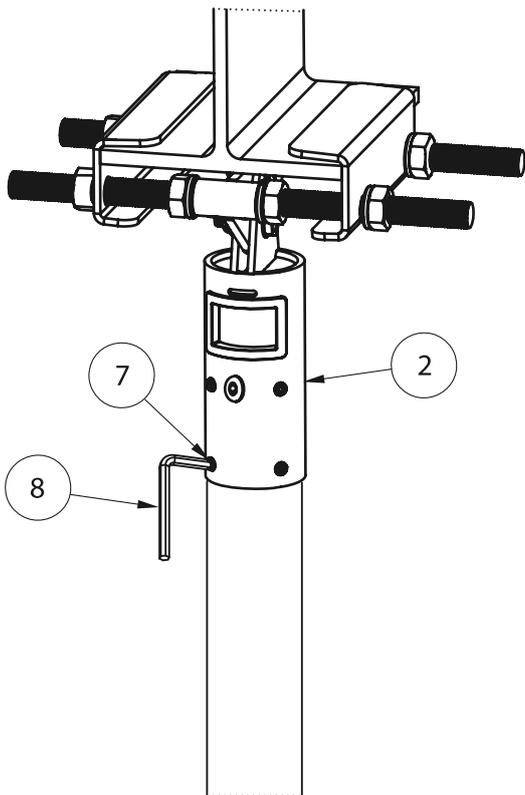

6. ATTACH EXTENSION POLE

- i. Insert the $\text{\O}50\text{mm}$ pole (sold separately) into item 2, aligning the safety bolt holes.
- ii. Fix item 6 into item 2, securing the pole to the mount.

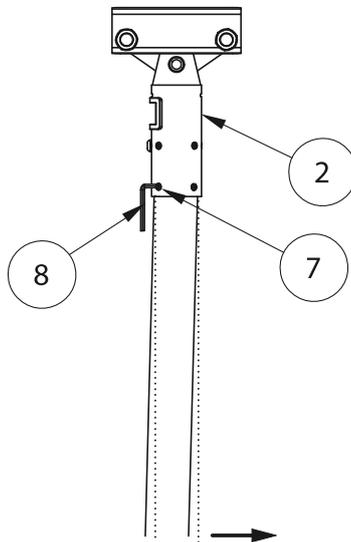

Note: The pole can be attached to the mount before or after the clamp has been fixed to the I-Beam.

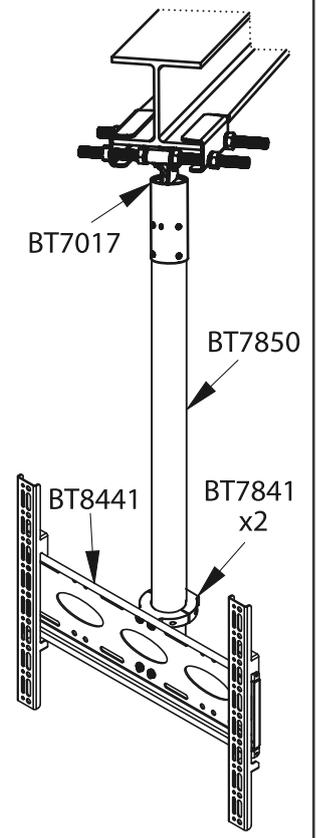

- iii. Tighten item 7 on item 2.

Note: The angle of the pole can be adjusted with item 7.
