Product Features

- High capacity and discharge current, low internal resistance, no memory effect, ready for loading and unloading.
- Stable performance, continuous charge and discharge for 500 times, battery capacity is not less than 85% of rated capacity.
- Use original program, intelligent protection circuit design, 15kg explosion-proof battery internal pressure valve automatically opens to prevent explosion.
- PTC internal safety switch automatically disconnected when short circuit and other damage happens.

Specification

Item type	Lithium Battery
Charge and discharge current	0.2C
Appearance	No scratches, deformation, stains, leakage of tension fluid
Battery capacity	3400mAh
Battery voltage	3.7V
Charging voltage	4.2 V
Weight	48.5g
Operating temperature	0 ~ 45 D
Internal resistance	Less than 20
Voltage discharge	2.5V
Storage temperature	-5°C to 35°C
Storage humidity	"75% RH

Thank you for choosing ENER-J!

Customer satisfaction is our TOP priority, please let us know how you felt about your experience. Happy? We are so happy that you are pleased with our product. Feel free to express your newfound joy! Share your experience by writing a review.

Not Happy? If you are not fully satisfied with the item you received, have any problems like damages, or questions, please contact us. We typically respond within 24-48 hours.
