

# INFRARED HEATING PANEL

SKU Code: IH1004 (for recessed)  
EAN Code: 7103353072878

**1005-595 Complete Infrared Heating Panel 600W-Aluminum Frames Insulation Layer Back Plate Power Cable Packing**

| Specification             |  |
|---------------------------|--|
| Working Voltage           | 220 -240volts, 50 Hz   |
| Watts                     | 600W   |
| Size                      | 1005*595*22  |
| Front Surface Temperature | 90-130D  |
| Heating element           | Far infrared carbon crystal                                      |
| Surface                   | White PET/customized image (add extra 25% for customised design) |
| Protection                | overheat protection device                                       |
| Frame                     | Aluminum frames( black or white or silver)                       |
| Energy Transfer Ratio     | 98%  |
| Mounting                  | Wall mounted/ceiling mounted/ free standing                      |
| Cable                     | 1.9m EU/BS power plug cable with VDE certificate                 |
| Package                   | Individual PP bag/inner box/Protection foam                      |
