

SLIM WIRELESS VIDEO DOOR BELL

SKU Code: SHA5289

Slim Wireless Video Door Bell with 2 Way Audio

The Slimmest Wireless Video Door Bell you will find in the UK market. Works on ENERJSMART app remotely. With 2 Way Audio, Motion Sensor Alert and Night Vision

Product Features

Clearly the Slimmest Wireless Video Door Bell you will ever see. Suits any style of Door. Smart And Elegant Design enhances the look of your Property.

- 3- 5 second push notification to mobile
- 2.4G WIFI
- iOS and Android support
- PIR--motion detection activated and infrared high vision.
- 1 pcs 18650 Li battery use (up to 4 months)
- Two way audio with noise cancellation.
- Low power consumption, over 4 months working time per charge.
- View angle 160°
- HD 720P video and Clear audio communications.
- SD card MAX 64GB

Specification

Sensor type	1/4 inch CMOS, PIR
Chip Processor	HI3518E V200

Minimum illumination	3Lux
View angle	160°FOV
Digital denoise	3D denoise
Video compression	Standard
Video compression type	H.264
Video size	1280x720
Frame rate	30fps(MAX)
Input	High Sensitivity Microphone
Output	Built-in Speaker
Audio	Two way audio with noise cancellation
Wireless standard	Wifi 802.11 b/g/n
Frequency range	2.4 GHz
Transmission distance	Outdoor: 80 meters, Indoor: 15 meters (sensitive to environmental change)
Storage	Support mirco SD card, 64GB max
Wake up methods	APP(3-5S), PIR motion detection(0.6S-1.5S), press doorbell (3-5s)
Notifications	3-5 seconds
Awaking up	210Ma, 6s Remote wake-up
Consumption	Standby less than260uA, average current 1.2ma, awakening 0.8W, Video call 1.2W, IR ON 1.6W
Power	1pcs, 3.7V 18650 battery usb 5v
Infrared high vision	5* infrared LED 850nm
Temperature and humidity	-20°C~55°C, humidity less than 90%(No condensation)
App	Enerjsmart
Size	131.8*46.8*25mm
Weight	80g/ 220g
