

Wifi Smart LED Dimmable & CCT Changing Filament E27 Bulb

SKU Code: SHA5298

Features

- Vintage Look and Feel:** Combine modern day technology with classic looks using this LED filament bulb. Set this dimmable LED bulb to warm white to cool white light colour for comfortable and cosy relaxing atmosphere.
- EASY TO CONTROL:** Change the brightness of the LED filament bulb remotely - via your smartphone or tablet, using free App for Android or iOS without any subscription. The E27 LED bulb supports voice control - via Amazon Alexa or Google Home. You can sit back and relax to turn the light off, without the need to get up and go to your switch!
- PROGRAM AND COMBINE:** Even if you forgot to turn off the light, don't worry! Schedule your E27 Edison screw bulb to go off at 9 am or to switch on at 7 pm or as the TV goes off.
- BRIGHT AND LONG LASTING:** The E27 LED bulb is made for general lighting. 1055 lm of the dimmable LED bulb provide as much light as traditional 60W in candescent bulb, and last for 2 years if the light is on all the time. The filament E27 LED bulb consumes only 8.5W, when lights are on.

A60, 8.5W, 1055lm, Voice Control via Alexa or Google Home, Retrofit Plug & Play, No Hub or Subscription Required.

Specifications
