SKU CODE:
T727-2

Ean Code on box:
5060774559871

Packing

Inner Qty
2pcs / pack

Outer Carton Qty
70packs

Features:

- **Infrared Induction, Motion Detection:** The PIR sensors on the motion sensor lights detect human motion by sensing the temperature changes within the detection area (Range: 3M, Angle: 120°). Once detecting your approaching, the light is activated and will shut off after 15s you leave, making it convenient to use under low light conditions.
- **10-LED Light with 2 switch Modes:** LED beads are hidden behind the thinner housings of the night lights, delivering even and gentle 3500K warm light that is free of dazzling, video flash, or harm to the eyes. Higher lumen up to 200±20% achieves a optimum illuminated area. switch Modes: Always on mode or motion sensor mode
- **USB Charging, No Battery Required:** Charge the under cabinet lighting by plugging the included USB-C charging cable into a PC, socket, or power bank. The inbuilt 2000mAh lithium battery about 2 hours to get a full charge and powers the LED light for 1.5 to 2 months (if the light is activated five times a day). Charge occasionally but benefit daily.
- **Magnetic Absorption, Effortless Installation:** No drilling or screwing is needed for installation. With the help of the strong magnet inside the closet light, you can choose between two installation methods - directly absorbing onto metal surfaces or utilizing the adhesive tapes and metal pieces. When necessary, take the lights down for illumination at any time. But benefit daily.

- **Multi-Scene Applicable Wireless LED Lights:** The wireless under counter lights for the kitchen is designed for multiple uses. This safe and convenient motion sensor light is a safe and great illumination solution for the baby room, stairs, basement, storeroom, cabinet, wardrobe, garage, and trunk. Serve as an emergency light, just in case.

Technical Parameters

material	Aluminium+PC
Led Type	SMD 2835
Qty	10 Leds
Power	2W
Battery type	Lithium 18650
CCT	3500K (Warm White)
CRI	≥80
Sensing distance	3M /Angle:120°
Supply current	DC 5V-1A
Battery capacity	280mAh
Product size	150*18.5*17mm
Product net weight	36g
Charging time	1-2 hours
Always on mode	3-4hours
Motion sensor mode	25-35 days(20s lighting on each time)

Packing List

Package include

- 1.Led Lightsx2
- 2.USB cable x2
- 3.Magnetic Iron Holder x4
- 4.User Manual:1

Thank you for choosing ENER-J!

Customer satisfaction is our TOP priority, please let us know how you felt about your experience. Happy?

We are so happy that you are pleased with our product. Feel free to express your newfound joy! Share your experience by writing a review.

Not Happy? If you are not fully satisfied with the item you received, have any problems like damages, or questions, please contact us. We typically respond within 24-48 hours.
